## **Risk Assessment 2019/20**

Dear Councillors,

The Council is expected to carry out an annual risk assessment of financial risks it is exposed to and identify any actions it considers necessary to minimise those risks.

A risk is the threat that an event or action will adversely affect the Council's ability to achieve its objectives and/or to successfully execute its strategies.

Risk assessment is a systematic general examination of working conditions, workplace activities and environmental factors that will enable the Parish Council to identify any and all potential inherent risks.

This document has been produced to enable Sevenoaks Town Council to assess the risks that it faces and satisfy itself that it has taken adequate steps to minimise or eliminate them insofar as is possible.

The risk management register assesses the risk factors that have been identified for Sevenoaks Town Council under the following headings:

Governance

Operations

Financial

Environment or external factors

Compliance (law and regulation)

The assessment considers the key triggers and causes, evaluates the risk as detailed below to determine the severity or level of risk, determines the likelihood of it occurring, likely consequences and impact and assigns a risk rating. It is not an exact science and the below serves as a guide based on common practice. Management/Control on steps taken or to be taken to control the risk appropriately are also inserted for each identified risk.

|   | Level of risk        | Likelihood    | Likelihood Indicators                                  | Impact on service and reputation                                                                                                                                                                                                                                                                 | Risk Rating                                                  |

There are 3 levels of risk:

| LOW   | MEDIUM | HIGH    |
|-------|--------|---------|
| 1 - 6 | 7 - 15 | 16 - 25 |

For example: A risk that is judged to be 'likely' (4) and have an 'insignificant' impact (1) would equate to a 'Low' risk level of 4 (4 x 1). A risk with a 'possible' likelihood (3) and 'extreme/catastrophic' impact (5) would equate to a 'Medium' risk level of 15 (3 x 5).

## **INVESTMENT STRATEGY, POLICY AND RISK MANAGEMENT 2019/20**

### **1. Introduction:**

- Sevenoaks Town Council (the Council) acknowledges the importance of prudently investing surplus funds held on behalf of the community.
- Statutory Powers: The Council's Investment Strategy complies with the revisions set out in:
  - the Statutory Guidance on Local Government Investments (3rd Edition) for financial years commencing 1 April 2018.
  - The Chartered Institute of Public Finance and Accountancy's (CIPFA) Treasury Management in Public Services: Code of Practice and Cross Sectoral Guidance NotesThe current statutory Community and Local Government (CLG) Investments Guidance Note which came into force on 2 February 2018 is appended to this document.

### **2. Reporting, Approval, Review and Amendment**

- 2.1. The Council is required to approve an annual Investment Strategy and Prudential Indicators so that borrowing and investments remain prudent, affordable and sustainable. The policy in line with CLG Guidance Note, will be reviewed by the Responsible Finance Officer for consideration and approval annually
- 2.2. The Annual Strategy for the coming financial year will be prepared by the RFO and presented for approval to the Finance and General Purposes Committee before the start of the financial year
- 2.3. The Council reserves the right to make variation to the Strategy at any time subject to the approval of Full Council. Any variations will be made available to the public.
- 2.4. Fund balances and Investment activity is to be reported at every Finance and General Purposes Committee.

### **3. Investment Objectives**

- 3.1. Guidance on local government investments issued by the Department for Communities and Local Government (CLG) currently suggests that investment strategy should have regard to the informal policy: Security – Liquidity – Yield – in that order.

The Council's investment priorities are as follows:

- Security of reserves i.e. protecting the capital sums invested from loss,
- Liquidity of its investments i.e. ensuring that funds invested are available for expenditure when needed. Cash available from the current account should be judged as adequate to cover the Council's commitments during the period of the investment(s).
- Yield i.e. the return on investment is considered once the first two objectives are satisfied.
- All investments will be made in sterling.
- The Council will carry out quarterly cash flow forecasts to ascertain expenditure commitments for the coming financial year.

3.2. The Guidance Note makes a distinction between investments that are:

- high security and high liquidity (specified investments); and,
- those with potentially greater risks and lower liquidity (non-specified investments)

The strategy should determine which categories of investment may be prudently used during the financial year and state the upper limits for the amounts which, at any time during the financial year, may be held in each category.

A 'Specified Investment' is one which is made in sterling, is not long term (less than 12 months) not defined as capital expenditure and is

- I. placed with a body which has a high credit rating or made with the UK Government,
- II. a UK Local Authority or a parish or community council.

Any other type of investment is considered 'Non Specified Investment' to which there can be greater risk and where professional investment advice might be required.

#### 4. Policy

- 4.1. The Council's strategy requires investment in Bodies with high credit ratings i.e. ratings of UK clearing banks and building societies should be at least A- or equivalent.
- 4.2. The Council will only invest in 'Specified' investments as per the criteria defined above.
- 4.3. The Council's policy is to retain not less than 3 months estimated working capital and capital requirements in current and deposit accounts giving immediate access.
- 4.4. Amounts representing the balance on Revenue Reserves at the beginning of the financial year to be placed on deposit of up to one year's duration, depending on the prevailing interest rates and forecast cash flow requirements;
- 4.5. Other funds to be placed on deposit of up to one year's duration, depending on the prevailing interest rates and forecast cash flow requirements.
- 4.6. The Council policy is to invest for the best income return having regard to the Statutory Guidance and the absolute requirement to avoid a capital loss.

## **5. Investment Risk**

### **5.1. Risk Management:**

#### **Limits**

As a rule, not more than 40% of the funds are to be placed with any one institution, however authorised officers may use their discretion to increase this to 50%.

#### **Categories**

Funds only to be deposited or invested in the following categories of specified investments (as defined by the 2003 Act)<sup>1</sup>:

- a) UK clearing banks or their subsidiaries, together with those former major building societies now banks;
- b) The Treasury Departments of building societies which are members of BSA with assets over £2bn;
- c) Non-UK financial institutions approved by the Finance and General Purposes Committee;
- d) UK Government stocks;
- e) UK local authority stocks or bonds;
- f) The money-market management operations of a UK public body or authority<sup>2</sup>, where the council's funds are pooled and invested on the money markets under the name of such UK public body or authority.

#### **Monitoring of Investment Counterparties**

In the case of (a) and (b) above, for investments with maturity of 6 months or less the receiving body of investment scheme should generally have a short term credit rating of not less than A2 or equivalent as indicated by Standard and Poors, Moody's Investors Services or Fitch Ratings.

For investments with maturities over 6 months, the long-term credit rating should be A- or equivalent. The Committee may take other information into account in assessing the creditworthiness (e.g. sovereign support).

In the case of (c) and (f) above, where ratings are available, such credit ratings should be equivalent to A or above, and subject to prior approval by the Finance and General Purposes Committee.

Ratings are to be monitored not less than quarterly and if the rating of any Council investment has fallen below the appropriate rating, the Council will take the earliest opportunity to withdraw the investment and re-invest the proceeds appropriately depending on the best rates of return on offer at the time.

Category (f) should include any investment via Sevenoaks District Council of deferred payment of the half-yearly precept.

### **5.2. Treasury Management Advice**

Within the limited range of potential investments identified it is not considered necessary to engage the services of a treasury management adviser. Independent research including internet research has been considered adequate.

---

<sup>2</sup> For example the Public Works Loans Board, or the treasury departments of a county or district local authority.

**5.3. Investment Training**

The Guidance recommends that the Strategy should state the process adopted for reviewing and addressing the needs of the authority's treasury management staff for training in investment management.

**5.4. Investment of money borrowed in advance of need**

- The Guidance maintains that authorities must not borrow more than or in advance of their needs purely in order to profit from the investment of the extra sums borrowed.

**6. Investment strategy review****6.1. Specified Investments**

The Council currently has 5 approved institutions, which are sufficient for it to keep within the 40-50% maximum investment limit for any one institution. Short term investments will be with any of the following, depending on the interest yield at the time of the investment.

All STC's investments currently fall within the 'specified investments' category.

Credit ratings are from all three rating agencies but Standard and Poor ratings are listed. Ratings are assessed at least on a quarterly basis. The last review listed was as at 9<sup>th</sup> of January 2018.

| Name of Institution         | Investment Period | Short Term Credit Rating | Long Term Credit Rating | Yield |
|-----------------------------|-------------------|--------------------------|-------------------------|-------|
| Bank of Scotland            | 3 months          | A1                       | A+                      | 0.65% |
| Handelsbanken               | 35 Day notice     | A1+                      | AA-                     | 0.25% |
| Nationwide                  | Instant access    | A1                       | A                       | 0.45% |
| HSBC Business Money Manager | Instant access    | A1+                      | AA-                     | 0.04% |

As at 1<sup>st</sup> April 2019, the Council will continue to hold its money in a current account with the NatWest bank and receive interest at the current applicable rate.

The Council has an existing account with Clydesdale (rating BBB+), which remains open with a £1 balance in case Councillors choose to invest with the bank in the future.

Owing to current projects and capital spending, funds will continue to be invested at maturities of no more than one year but predominantly three months. Quarterly cashflow predictions will be used to ensure that funds required for projects anticipated to occur in the next quarter are held at appropriate maturities.

This will be reviewed on an ongoing basis and maturities of a longer duration may be considered, if beneficial.

**6.2. Consideration of alternative investments**

The Council may wish to introduce additional investments as requirements change so that funds can be spread more widely in order to minimise financial risk. It should be borne in mind, however, that the wider the spread of Council funds, the more work is involved in managing them, and it would not be appropriate to continue to increase the number of approved funds indefinitely.

Consideration may be given to unspecified investments, CCLA funds and investing through a broker.

**CCLA Funds****Public Sector Deposit Fund**

It is an FCA regulated qualified money market fund with an AAA Fitch rating. The fund is instant access (although access does involve the selling of shares) with interest paid at the end of each month. It invests in deposits with a range of highly rated UK and non-UK financial institutions, thereby spreading the investment risk. However, institutions in which the fund invests may not comply with the Council's own investment strategy. The amount placed with F1+ institutions was 33.52% as at December 2018.

It offered a dividend yield of 0.63% on a one-year deposit as at December 2018.

The value of units and the income from them can fall as well as rise and an investor may not get back the full amount invested. Given the unpredictability and uncertainties surrounding the underlying shares, the Council has historically chosen not to use this type of investment. The CCLA public sector deposit fund was previously considered by the F&GP Committee but rejected in line with the policy which prioritises the security of investments.

**Local Authorities Property Fund**

Aims to provide investors with a high level of income and long-term capital appreciation. Fund invests in UK commercial properties. Capital growth is achieved while property prices continue to increase – but fund values would decrease in the event that property prices fall (e.g. in the event of a significant rise in interest rates).

It offered a dividend yield of 3.18% at the end of December 2018.

The investment is regarded as for the long term. Councillors should bear in mind the Council's current investment strategy which has an absolute requirement to avoid capital loss.

**Investments through a broker**

Investing through a broker would allow access to building society and money market funds which may not be accessible directly. Brokers furnish an introduction to available funds, and provide information and facilitate the administration of opening accounts. No funds are provided to them, and there are no charges associated with their services – they charge the borrower.

Minimum investments are generally £1m for money market funds, but building societies will accept investments down to £500,000. While this would not be appropriate in normal circumstances for STC, information may be sought should the opportunity arise.

Sevenoaks  
TOWN COUNCIL  
**Reserves Policy 2019/20**

## **Background**

Sevenoaks Town Council (STC) is required, under statute, to maintain adequate financial reserves in order to meet the needs of the organisation. Section 50 of the Local Government Finance Act 1992 requires local precepting authorities to have regard to the level of reserves needed for meeting estimated future expenditure when calculating the budget requirement. However, there is no specified minimum or maximum level of reserves that an authority should hold.

In an Audit Commission document 'Interpreting the accounts' published in September 2014, the Audit Commission defined the useable reserves of a council as 'the money it is retaining to fund future spending commitments and to meet unpredictable variations in spending'. The Commission defined useable reserves as including:

- the balance of the council's general fund;
- earmarked general fund reserves; and
- useable capital receipts.

With regard to the levels of reserves which a council decides to hold, the Commission states that the following issues should be considered:

*Elected members are responsible for ensuring that their council's reserves are appropriate for local circumstances, and are accountable to taxpayers for the decisions they make.'*

*'Councils face ongoing financial challenges as they adapt to deliver services at lower cost in response to rising demand, in some cases, and reductions in funding. As we have reported previously), the cost and risks associated with service transformation, and uncertainty about future funding, have resulted in some councils increasing reserves, while others have been using reserves to make up shortfalls between their funding and spending plans.*

*All councils should continue to ensure that their reserves remain adequate for planned future needs and contingencies without placing undue constraints on current expenditure. Councils with very high levels of reserves relative to their spending should review the purposes for which these are held to ensure they are still required. The purposes for holding reserves, particularly where these are increasing, should be clearly communicated through the annual accounts.'*

## **Reserves Policy 2019/20**

### **Sevenoaks Town Council Policy**

The current policy of Sevenoaks Town Council is to work towards a general reserve fund equal to at least 6 months of the current precept.

Any decision to set up reserves or spend from reserves must be made by Council. Reserves must not be held for on-going expenditure because this would be unsustainable. To the extent that reserves are used to meet short term funding gaps, the aim should be to replenish in the following year or as soon as possible thereafter.

Earmarked reserves that have been used to meet specific liability would not need to be replenished having served the purpose for which they were established.

Reviewing the Council's Financial Risk Assessment forms part of the budgeting and year end accounting procedures and identifies planned expenditure (and an allocation for contingency towards unplanned expenditure) thereby indicating the appropriate level of Reserves required for the coming financial year.

### **General reserves fund**

The general reserves are funds which do not have any restrictions as to their use. These reserves cushion the impact of uneven cashflows, offset budget requirements (if necessary), fund short-term financial risks (see below), and unexpected or exceptional events. The reserve also enables the Town Council to act in an agile manner as opportunities occur. The primary means of building general reserves will be through an allocation from the annual budget. This will be in addition to any amounts needed to replenish reserves that have been used up in the previous year.

### **Earmarked reserves**

Earmarked reserves are created and held for specific ring-fenced purposes or to help smooth out medium and long term financial risks and spending plans.

They can also be held as carry forward of underspend. As is the case where the Council commits expenditure to specific projects but is unable to spend the budget in the year. Reserves in this instance are used as a mechanism to carry forward budgeted resources e.g. Rolling Capital Projects, Youth activities reserves, Markets, STP.

### **Consideration of Short-term Financial Risks**

In order to assess the adequacy of the general reserve, the Council must take account of the strategic, operational and financial risks faced. The level of the reserve for the forthcoming year must be based upon a risk assessment of the Council's income and expenditure and take into account any contingencies that may be required.

  
**Sevenoaks**  
**Town Council**  
**Reserves Policy 2019/20**

The short-term risks that the Town Council faces, with particular reference to its current plans include:

**Lower than expected income**

- **Grant income** - In previous years the net expenditure of the Town Council has been slightly lower than the precept, with the result that the Council has been able to boost the level of the general reserve fund. Since net expenditure is stated after deducting revenue grants received from third parties, the savings partly reflect unbudgeted grant. Conversely if budgeted grant income were not received for any reason then a surplus of net expenditure over precept could result, with the balance being funded by the general reserves fund.
- **Other income** - the revenue estimates forming the basis of the precept includes predicted income from a range of sources, such as cemetery income, letting and hiring income, new facilities such as Bat & Ball station café and room hires. It is difficult to predict with accuracy (particularly, for new venues such as the Bat & Ball station). If income received were to fall below the budgeted level, then the balance could be funded from general reserves.

**Higher than expected costs**

**Due to:**

- **Inflation increases;**
- **capital overspend.** The general reserves fund can be used to fund capital costs as well as to cover short term revenue funding requirements. It would therefore cover any unexpected costs associated with the Council's Community Investment Plan in the unlikely event that alternative sources of funding do not meet requirements or that the timing of receipts do not match expenditure.
- **uninsured events** which are not adequately provided for such as major streetlighting repairs, conversion, replacement and removal on certain streets;
- **unexpected professional fees** (although these will be mainly charged against the capital receipts fund);
- **increased costs of running properties and facilities.** For example, under the Council's current capital commitments, any excess running costs for new facilities that cannot be funded out of the precept or grants will be charged against revenue reserves;
- **shortage of staff resources.** The costs of additional staff recruited to cope with increased workload could be treated as capital transaction costs insofar as they are deemed to relate to additional work created by significant capital plans, otherwise additional costs not covered by the precept would be charged against revenue reserves;

  
**Sevenoaks**  
**TOWN COUNCIL**  
**Reserves Policy 2019/20**

### Consideration of Longer-term Financial Risks

Longer term financial risks faced by the Council include:

- Funding the Council's capital projects and the uncertainties therein;
- Funding the deficit in the Local Government Pension Scheme;
- Funding for expenditure that arises once every 2-5 years e.g elections
- Funding the repairs or replacement of assets;
- Changes to legislation e.g. uncertainties created by the income to be generated from CIL

### Current Level of Financial Reserves

Council should consider the opportunity cost of holding reserves which enables it to manage unforeseen pressures against current strategic plans. It is noted that holding the required six months of the precept in general reserves is not currently possible although the policy remains unchanged. There is an adequate level of financial resources to meet ongoing revenue requirements. As at November 2018, the level of earmarked reserves was £2.7m and the level of revenue reserves was £308K. The council through careful planning has always sought alternative sources of funding for refurbishment and projects where possible. This is in addition to allocating a level of general and earmarked reserves as required for planned expenditure.

The current level of general reserves is being monitored against medium term strategic plans including 2019-20. A one-off transfer from reserves has been recommended to balance the 2019-20 budget. This is to offset the financial impact of the loss of Community Centre income once refurbishment of the centre commences in June 2019.
